

RIPAN NURPAUJAN

081384331797 | fauzanivan21@gmail.com | www.linkedin.com/in/rippannurpaujan
Tangerang, Indonesia

Mechanical Engineering graduate with hands-on experience in production operations and process improvement. Responsible for supporting production supervision, managing operational resources, and ensuring product quality standards are met. Familiar with lean manufacturing principles and continuous improvement methodologies applied directly on the production floor. Holds active BNSP K3 certification with awareness of ISO 9001/14001/45001 standards.

Work Experience

PT Langgeng Jaya Fiberindo - Tangerang, Indonesia Jan 2026 - Present

Management Trainee - Staff Production

- Supported production supervisors in achieving daily production targets for Geotextile and Padding business units by coordinating production activities, monitoring process conditions, and supervising 17 operators across Needle Punch production lines.
- Improved operator competency and compliance with quality and operational standards by providing training and on-the-job mentoring on production processes, work instructions, and SOPs.
- Supported EHS, PPE compliance, and safe production operations while assisting in process performance monitoring and operational evaluation.
- Collected, processed, and analyzed production data to support production reporting, process performance monitoring, and data-driven decision making.
- Developed Power BI dashboards for production and preventive maintenance monitoring, including downtime analysis, loss time tracking, maintenance history, and OEE (Overall Equipment Effectiveness) evaluation.
- Supported continuous improvement initiatives through Quality Control Circle (QCC) projects and root cause analysis to identify waste issues and recommend process improvements.

PT Cadfem Simulation Technology Indonesia - Yogyakarta, Indonesia Feb 2024 - Jul 2024

Simulation Engineer - Internship

- Executed CFD simulations for train aerodynamics, wing lift-drag evaluation, and cyclone separator performance using ANSYS Fluent, covering mesh configuration, boundary condition setup, turbulence model selection, and solver setup.
- Analyzed velocity contours, pressure distributions, and flow patterns to assess system performance, including multiphase flow simulation of a CO2 absorption column to support baseline design evaluation.

Project Experience

Nanomaterial Laboratory, UMY - Yogyakarta, Indonesia Dec 2024 - Jul 2025

Research Assistant - Final Year Research Project

- Achieved 39% increase in heavy metal (Fe) filtration efficiency, measured through lab performance testing, by optimizing fabrication process parameters of BN-PVC/PEG nanofiber membrane, including material composition and process control and preparing full technical documentation aligned with lab standards.

Education

Universitas Muhammadiyah Yogyakarta - Yogyakarta, Indonesia Sep 2021 - Aug 2025

Bachelor of Mechanical Engineering, 3.84/4.00

- Awarded UMY General Scholarship (2022 & 2024) and BSI Scholarship (2023) for academic excellence.
- Ranked in the Top 3 of Mechanical Engineering program with GPA 3.95 (2021).

Organizational Experience

Himpunan Mahasiswa Mesin UMY - Yogyakarta, Indonesia Nov 2023 - Jul 2024

Division Secretary of Research and Technology

- Managed division administration and coordinated technical events and research activities, handling scheduling, documentation, and correspondence.

Skills, Achievements, and Certifications

- Hard Skills:** SolidWorks, ANSYS Fluent, Python, Microsoft Excel, Microsoft Word, Lean Manufacturing, 5S/5K, SQDC Framework, Work Instruction Implementation, Line Balancing, QCC (Fishbone & Pareto), Autonomous Maintenance, EHS Procedures, ISO 9001/14001/45001 Awareness, Root Cause Analysis
- Soft Skills:** Analytical Thinking, Problem-Solving, Attention to Detail, Teamwork, Communication, Time Management, Leadership, Technical Writing.
- Language:** English (Intermediate), Indonesia (Native).

- **Certification (2024):** Certified General Occupational Safety and Health Expert (Ahli K3 Umum)
- **Certification (2024):** Ansys Associate Certification: Basics of Fluid Dynamics
- **Certification (2022):** Certified SolidWorks Associate (CSWA) - Mechanical Design
- **Certification (2022):** Python for Data Science Certification
